THE HUMAN RESOURCE OFFICER

Set Soft Company,

RE: APPLICATION FOR A PLACE FOR INTERNSHIP

Dear sir/Madam

I am writing to impress my interest for internship at SetSoft. As a second year student pursuing a Bachelor's degree of science in Software Engineering, at Universal Technology and Management University. I am eager to apply the knowledge I have learnt from class to solve real world challenges. Through out my career so far, I have gained knowledge in programming using languages Java, Python, HTML, CSS, Kotlin C and C++. I can develop projects like designing websites, designing UI for Mobile apps, database management and model training.

I am drawn to your company because I know I will gain a lot of experience and learn new things as I am open to learning new things.

Looking forward to hear from you.

Otim micheal
